Artist's Proposal

The title of the artwork that I chose for my research is Two Women Crossing a Field created by artist Vincent Van Gogh in July of 1890 in Auvers-sur-oise, France. The style of art that was used for this artwork is called Cloisonnism. Another major artist who created artwork in this style is Paul Gauguin. For my project I will create the same scene at the farm Botna Bend in Hancock, Iowa. The two women will be me and my friend Cait. When I set up the picture I will try to set up the picture so that I have a structure in a similar area as the painting. I think I can set it up to have the chicken coop as the structure. I will make it contemporary by having contemporary clothing on but make it similar to the picture by using the same colors. The materials I will need is two hats and a white outfit and a blue or purple outfit. The three days I plan to take pictures outside of class are in the evening of April 22, 23 and 26th. The two days I have schedule for retakes are April 27th and 28th.
